Oakland, CA 94607

3:23-cv-46

Dear Sir,

We have been extremely dissatisfied with the solar system we purchased from Solar Titan USA (Solar Titan) as the system has never worked properly. We were promised many things that were just not true. We have called numerous times without any resolution. Without any further options, we stopped paying for the equipment and are now being pursued via collections for a system that has never worked properly.

We were promised that the system would save so much money on our electric bill that it would pay for itself. That has not happened, in fact our bill has increased. We were promised that it would run our entire house. That is not correct either. Nothing we were told was correct.

We did sign the installation agreement on July 28, 2021 for \$29,500. However, we never signed a credit application, never signed a loan contract, never seen any finance documentation including interest rate, APR, etc. The system was not officially "turned on" for a whole year. Ever since, we have been calling Solar Titan to get the system working and nothing. Earlier this year, we did have some crew come out, do something on the unit without telling us what they did, and it still doesn't work.

We are happy to pay for the system, but only if it is working. Until then we will not pay another dime. If you are unable to get the system to work, feel free to come and get it. But you should not penalize us via collections of \$31,300.65 for a system that was never functional. We have filed a complaint on the system.

We can be reached at 865-577-0004.

Sincerely,

  
Jerry D. Simmons

  
Edith Kay Simmons
